*Neprilysin Inhib (Arni)-Angiotensin Ii Recept Antag Comb*** - Drugs For The Heart	162
Neuromuscular Agents - Drugs For Nerves And Muscles	162
Nutrients - Drugs For Nutrition	162
Ophthalmic Agents - Drugs For The Eye	165
*Ophthalmic Rho Kinase Inhibitors*** - Drugs For The Eye	169
Otic Agents - Drugs For The Ear	169
Oxytocics - Hormones	170
Passive Immunizing Agents - Biological Agents	170
*Pcsk9 Inhibitors*** - Drugs For The Heart	171
Penicillins - Drugs For Infections	171
Pharmaceutical Adjuvants	171
*Poly (Adp-Ribose) Polymerase (Parp) Inhibitors** - Drugs For Cancer	181
*Poly (Adp-Ribose) Polymerase (Parp) Inhibitors*** - Drugs For Cancer	181
*Potassium Removing Agents*** - Drugs For Nutrition	181
Progestins - Hormones	181
*Protein-Carbohydrate-Lipid With Electrolyte Combinations*** - Drugs For Nutrition	182
Psychotherapeutic And Neurological Agents - Misc. - Drugs For The Nervous System	182
*Pulmonary Fibrosis Agents - Kinase Inhibitors*** - Drugs For Cancer	186
Respiratory Agents - Misc. - Drugs For The Lungs	186
*Serotonin Modulators*** - Drugs For The Nervous System	186
*Sinus Node Inhibitors** - Drugs For The Heart	186
*Sodium-Glucose Co-Transporter 2 Inhibitor-Biguanide Comb*** - Hormones	186
*Steroids - Mouth/Throat/Dental*** - Drugs For The Mouth And Throat	187
Sulfonamides - Drugs For Infections	187
Tetracyclines - Drugs For Infections	187
Thyroid Agents - Hormones	187
Toxoids - Biological Agents	188
Ulcer Drugs - Drugs For The Stomach	188
Urinary Anti-Infectives - Drugs For The Urinary System	191
Urinary Antispasmodics - Drugs For The Urinary System	192
Vaccines - Biological Agents	193
Vaginal Products - Drugs For Women	194

Vasopressors - Drugs For The Heart.....	195
Vitamins - Drugs For Nutrition	195

Definitions

Brand name drug means a drug that is marketed under a proprietary, trademark-protected name. A brand name drug is listed in this formulary in all CAPITAL letters.

Coinurance means a percentage of the cost of a covered health care benefit that you pay after you have paid the deductible, if a deductible applies to the health care benefit.

Copayment means a fixed dollar amount that you pay for a covered health care benefit after you have paid the deductible, if a deductible applies to the health care benefit.

Deductible means the amount you pay for covered health care benefits that are subject to the deductible before your health insurer begins to pay. If your health insurance policy has a deductible, it may have either one deductible or separate deductibles for medical benefits and prescription drug benefits. After you pay your deductible, you usually pay only a copayment or coinsurance for covered health care benefits. Your insurance company pays the rest.

Drug Tier means a group of prescription drugs that correspond to a specified cost sharing tier in your health insurance policy. The drug tier in which a prescription drug is placed determines your portion of the cost for the drug.

Exception request means a request for coverage of a non-formulary drug. If you, your designee, or your prescribing health care provider submits a request for coverage of a non-formulary drug, your insurer must cover the nonformulary drug when it is medically necessary for you to take the drug.

Exigent circumstances means when you are suffering from a medical condition that may seriously jeopardize your life, health, or ability to regain maximum function, or when you are undergoing a current course of treatment using a non-formulary drug.

Formulary or prescription drug list means the list of drugs that is covered by your health insurance policy under the prescription drug benefit of the policy.

Generic drug means a drug that is the same as its brand name drug equivalent in dosage, strength, effect, how it is taken, quality, safety, and intended use. A generic drug is listed in this formulary in italicized lowercase letters.

Medically Necessary means health care benefits needed to diagnose, treat, or prevent a medical condition or its symptoms and that meet accepted standards of medicine. Health insurance usually does not cover health care benefits that are not medically necessary.

Non-formulary drug means a prescription drug that is not listed on this formulary.

Out-of-pocket costs means your expenses for health care benefits that aren't reimbursed by your health insurance. Out-of-pocket costs include deductibles, copayments, and coinsurance for covered health care benefits, plus all costs for health care benefits that are not covered.

Prescribing provider means a health care provider who can write a prescription for a drug to diagnose, treat, or prevent a medical condition.

Prescription means an oral, written, or electronic order from a prescribing provider authorizing a prescription drug to be provided to a specific individual.

Prescription drug means a drug that by law requires a prescription.

Prior Authorization means a decision by your health insurer that a health care benefit is medically necessary for you. If a prescription drug is subject to prior authorization in this formulary, your prescribing provider must request approval from your health insurer to cover the drug before you fill your prescription. Your health insurer must grant a prior authorization request when it is medically necessary for you to take the drug.

Step therapy means a specific sequence in which prescription drugs for a particular medical condition must be tried. If a drug is subject to step therapy in this formulary, you may have to try one or more other drugs before your health insurance policy will cover that drug for your medical condition. If your prescribing provider submits a request for an exception to the step therapy requirement, your health insurer must grant the request when it is medically necessary for you to take the drug.

What is the Aetna Better Health of California Formulary (List of Drugs)?

This is a drug list created by Aetna Better Health of California called the Drug Formulary. The plan will cover drugs on this list. Some drugs may have coverage rules. If the rules for that drug are met, the plan will cover the drug.

There is a committee called the Pharmacy and Therapeutics Committee made up of doctors and pharmacists from Aetna Better Health of California and the medical community. They meet every three months to review this list of drugs and any new drugs that have come out.

Can the Plan's Drug List change?

The plan may add or remove drugs on the list. Utilizing members and their providers will be notified at least 30 days before a drug is removed from the formulary. All changes to the formulary will be posted on the plan's website at:

<https://www.aetnabetterhealth.com/california/members/pharmacy>

The formulary can change throughout the year. Some reasons why they can change include:

- New drugs are approved.
- Existing drugs are removed from the market.
- Prescription drugs may become available over the counter (without a prescription). Over-the-counter drugs are not generally covered in a formulary.
- Brand-name drugs lose patent protection and generic versions become available. When this happens, the generic drug will be covered in place of the brand-name drug. The brand-name drug is likely to become non-formulary or covered at a higher cost. See the "what are generic drugs?" section above for more information.

How do I use the Plan's Formulary?

A prescription drug may be located by looking up the therapeutic category and class to which the drug belongs or the brand or generic name of the drug in the alphabetical index; and

If a generic equivalent for a brand name drug is not available on the market or is not covered, the drug will not be separately listed by its generic name.

- A drug is listed alphabetically by its brand and generic names in the therapeutic category and class to which it belongs;
- The generic name for a brand name drug is included after the brand name in parentheses and all bold and lowercase italicized letters. (For example: COREG (*carvedilol*))

- If a generic equivalent for a brand name drug is both available and covered, the generic drug will be listed separately from the brand name drug in all bold and lowercase italicized letters; and (For example: *carvedilol*)
- If a generic drug is marketed under a proprietary, trademark-protected brand name, the brand name after the generic name in parentheses and regular typeface with first letter of each word capitalized. (For example: *desogestrel-ethinyl estradiol* (Azzette)).
- Inclusion of a prescription drug on the formulary does not guarantee that your provider will prescribe the drug for a particular medical condition.'

- **Column #1: Prescription Drug Name:** lists the covered drug. Brand drugs are in all CAPITAL letters (e.g., DRUG). Generics are in lower case letters (e.g.,drug). Different dosage forms or strengths are identified.
- **Column #2: Drug Tier:** Indicates that the drug is covered without cost sharing, unless it is carved out to state. In this case, it just means that the pharmacy will process it differently when you present your prescription to them.
- **Column #3: Coverage Requirements and Limits:** tells you if drug has a need for prior authorization or other restrictions

Drugs are also grouped by drug class. If you know what class your drug is in, please look for that class name in the table of contents. Then look under that page for your drug.

What are generic drugs?

The plan covers both brand and generic drugs. Generic drugs cost less and are approved by the Food and Drug Administration (FDA). Generic drugs are proven to be just as safe and effective as brand-name drugs. They contain the same active ingredients in the same amounts as the brand-name drugs and work the same way. So they have the same risks and benefits as brand-name drugs. However, they typically cost less.

What if my drug is not on the drug list?

In certain cases, you or your prescriber can request a medical exception to the prior authorization, step therapy or quantity limits requirement or for a drug that's not covered on your plan. Coverage determinations will be made within 72 hours of receiving non-urgent requests. You can ask for your request to be expedited. Expedited coverage decisions are made within 24 hours. We will then contact you and your doctor with our decision. All medically necessary outpatient prescription drugs will be covered.

Medical exceptions which are approved for non-urgent requests will cover the duration of the prescription, including refills. Approved medical exceptions for exigent circumstances will provide coverage for the duration of the exigency. If your request is denied you have the right to file an appeal using the process described in the notification letter.

If a determination is not made for a prior authorization or step therapy exception request within 72 hours of receiving a non-urgent request and 24 hours of receiving a request based on exigent circumstances, the request is deemed approved and we may not deny the request thereafter.

In accordance with state law, members who have previously received approval from us for coverage of medications for their medical conditions will continue to have those medications covered, for as long as the prescriber continues prescribing them, as long as the drug is appropriately prescribed and is considered safe and effective for treating the member's medical condition.

How do I get a mail order prescription?

If you take medicine for an ongoing health condition, you can have them mailed to your home. Aetna Better Health works with a company called CVS Caremark, to give you this service which is available at no cost to you.

If you choose this option, your medicine comes right to your home. You can set up your refills. You can ask pharmacists questions. Here are some other features of home delivery:

- Pharmacists check each order for safety.
- You can order refills by mail, by phone, online, or you can sign up for automatic refills.
- You can talk with pharmacists by phone.

It's easy to start using mail service

Choose ONE of the following three ways to use mail service for a medicine that you take on an ongoing basis:

- Call the CVS toll-free number at **1-855-271-6603, TTY 711** (24 hours a day, 7 days a week). They will let you know which of your medicines can be filled through CVS mail service pharmacy. CVS will then contact your doctor for a prescription and mail the medicine to you. When you call, be sure to have:
 - Your Plan member ID card
 - Your doctor's first and last name and phone number
 - Your payment information and mailing address

- Go to our **member portal** to register or login. Once you enter the member portal, go to **Tasks** and then **Phramacy Services**. Click on the **CVS link** to go to **Caremark.com**. Click on start "mail service" to print off the mail order form. You can contact CVS at **1-855-271-6603**. Be sure to have your member ID card handy when you register for the first time.
- Fill out and send a [mail service order form PDF Opens In New Window](#). If you already have a prescription, you can send it to CVS Caremark with a completed mail service order form. If you don't have an order form, you can download it. You can also request one by calling Member Services at **1-855-772-9076**, TTY 711.

Have the following information with you when you complete the form:

- Your Plan member ID card
- Your complete mailing address, including ZIP code
- Your doctor's first and last name and phone number
- A list of your allergies and other health conditions
- Your original prescription from your doctor

Where can I get a Specialty Drug?

CVS Specialty Pharmacy is the preferred specialty pharmacy for Aetna Better Health of California members. A specialty pharmacy fills drugs and has other services to help you. The Specialty Drug Program has special services for you:

- You can talk to a Pharmacist 24 hours a day, 7 days a week
- Counseling about your drug and disease
- Coordination of care with you and your doctor
- Delivery of Specialty drugs to your home or doctor's office
- You can drop off your prescription and pick up your drug at any CVS Pharmacy (including those inside Target stores)
- You can call CVS Specialty Pharmacy at **1-800-237-2767**; TTY/TDD: **1-800-863-5488**. CVS Specialty Pharmacy will help you with filling your specialty drug.

View the [specialty drug list](#) available through CVS Specialty Pharmacy

Are Over-The-Counter (OTC) drugs covered?

The plan will cover OTC drugs on the formulary. Some OTC drugs may have coverage rules. If the rules for that OTC drug are met, the plan will cover the OTC drug. Like other drugs, OTC drugs need a prescription from a doctor if they are to be covered by the plan.

Are certain injectable drugs given by my doctor or provider in a clinic covered?

These types of drugs are covered under the medical benefit instead of the pharmacy benefit. For the most part, this drug formulary is made up of drugs you get from a pharmacy and give to yourself. If your provider needs to administer a drug in the clinic such as an injectable, they have instructions on how to bill Aetna Better Health of California.

How do I find a network pharmacy?

You can find a pharmacy in two ways:

- Online: By logging onto your secure member website at <https://www.aetnabetterhealth.com/california/find-provider>.
 - By phone: Call Member Services at 1-855-772-9076, TTY 711. They'll be glad to help you find a network pharmacy near you.

Always remember to fill your prescription at a network pharmacy. Your prescriptions won't be covered at other pharmacies.

Are there Medication Copays?

Refer to member handbook for copay information.

Updated: 12/01/2020

Page | 3

What are some types of coverage rules?

- **Prior Approval (PA):** This means your doctor will need to get approval from the plan first before the drug can be filled at the pharmacy. If it is not approved, the plan will not cover the drug.
- **Quantity Level Limits (QLL):** This means there is a limit on the amount of drug the plan will cover. For example, the plan provides 60 pills in 30 days for some drugs.
- **Step Therapy (ST):** This means you may need to try certain drugs first to treat your condition. After the first drug is tried, the plan will then cover the other drug for that same condition. For example, Drug A and Drug B may treat your condition. The plan may not cover Drug B unless you try Drug A first. If Drug A does not work for you, then Drug B will be covered.
- **Simple Intravenous Solutions:** Simple intravenous solutions are typically used for hydration therapy. Included are commercially available (non-compounded) solutions such as Normal Saline, Dextrose (up to 10% in Water) and Lactated Ringer's Solution; commercially prepared solutions of potassium chloride in such solutions are also included in this definition. Simple intravenous solutions should be billed using the product's National Drug Code (NDC) number.
- Parenteral Nutrition Solutions (TPN or Hyperalimentation): (Parenteral nutrition solutions are intravenously or intra-arterially administered nutritional products that typically are suspensions or solutions of amino acids or protein, dextrose, lipids, electrolytes, vitamin &/or mineral supplements and trace elements.)
 - Restricted to dispensing within 10 days following inpatient discharge from an acute care hospital, when I.V. therapy with the same drug was started before discharge. There is a maximum of 10 days supply per dispensing within the 10-day period.
 - Adjuncts to parenteral nutrition are other drugs which are physically mixed into a parenteral nutrition solution at any time prior to administration. Bill for these products as part of the parenteral nutrition billing.

***Note:** Non-compounded products must be billed using the product's NDC number. Compounded solutions must be billed as a compound claim.

- Separately Administered Intravenous Lipids:
 - Restricted to dispensing within 10 days following inpatient discharge from an acute care hospital, when I.V. therapy with the same product was started before discharge. There is a maximum of 10 days supply per dispensing within this 10-day period.
 - Intravenous lipid solutions or suspensions that are administered separately from parenteral nutrition solutions (that is, are not physically mixed into the parenteral nutrition solution container) should be billed using the product's NDC number.
- **Enteral Products:**
 - Products on the Medi-Cal List of Enteral Nutrition products are covered upon medical prior authorization and medical necessity review. These products are listed here:
 - http://files.medi-cal.ca.gov/pubsdoco/publications/masters-tp/part2/enteral_a04p00.doc
 - Aetna Better Health provides or arranges for medically necessary covered enteral products, and to ensure that these are provided in an amount no less than what is offered to beneficiaries under Medi-Cal Fee- For-Service, according to the Medi-Cal policy listed here:
http://files.medi-cal.ca.gov/pubsdoco/publications/masters-tp/part2/enteral_a04p00.doc

What if my drug is not on the plan's Formulary?

If your medicine is not on the preferred drug list, there are some things you can do.

- Ask your provider for a similar drug that *is* on the list.
- Ask your provider to seek “prior authorization” (pre-approval) from Aetna Better Health of California to cover this medicine.

How can my doctor or provider request a prior authorization or exception if the plan does not cover my drug?

They can do this in three ways:

- 1) Your provider may fax a completed pharmacy prior authorization or step therapy exception form to **1-844-823-5478** and include all necessary information.
- 2) They can also submit the request over the phone by calling **1-855-772-9076**.

- 3) They can submit an Electronic Prior Authorization (ePA),

What if I have questions about how Aetna Better Health of California covers drugs?

Learn about your pharmacy benefits:

Whether it's pain medication after an injury or medication to manage a health condition, getting the prescription drugs you need is an important part of your health care. We want to make it as easy for you as possible. If you have any questions, please call Member Services at **1-855-772-9076, TTY 711**. Have a list of your prescriptions ready when you call. Ask us to look up your medicines to see if they're on the list.
