Multiple Ambulance Trips in One Day

IlliniCare Health has removed configuration edits that previously denied Ambulance claims “EXyq: Duplicate Claims or Multiple Providers billing same/similar code(s)” for a situation where a member had more than one Ambulance trip in a single day. This edit was removed effective July 9, 2019. Providers do not need to resubmit claims and a global project will be submitted and processed for historical claims.

As always, we thank you for providing excellent care to our members. If you have questions, please call (866) 329-4701 or contact your respective Provider Relations Specialist.

Sincerely,

IlliniCare Health
