

## PDL Notification Letter

With the transition to the KY Medicaid Preferred Drug List (“PDL”), we have been alerted to some instances of medications rejecting at the point of sale due to an incomplete smart edit entry. For certain classes of drugs, the pharmacy needs to enter a diagnosis code for the claim to pay.

While these point of sale rejections may seem like a prior authorization is needed, they do not actually require a prior authorization. If the diagnosis is entered at point of sale, the claim will pay. Please note that for some of the agents, brand is preferred. The brand name product must be submitted for claim to pay. ([Please refer to the Single PDL and Supplemental formulary for preferred products.](#))

Also, there may be instances where other UM criteria must be met (ex. Exceeds Quantity limits). If other UM criteria rejects in addition to Smart edit diagnosis entry, a PA request may be required.

Please visit our [website](#) for more information about [Smart Edits](#) and these changes

How can you as the prescriber help your patients?

- Ensure your ICD-10 diagnosis code is on your medications order (usually done by your EMR) at submission
  - If using a paper/printed prescription, please add ICD-10 diagnosis code
- You can also check the list of drugs that have Smart Edits in place here

- [What is a Smart Edit](#)
- [Single Preferred Drug List \(PDL\) Formulary and the Aetna Supplemental Formulary](#)
- [Single PDL Smart Edit Notification RX](#)

- Again, these are the drugs that allow a diagnosis code to be entered at point of sale for claim adjudication. If the drug it isn't on that list, then your patient may need a PA, or you can consider prescribing an alternative.

Aetna Better Health® of Kentucky

The recipient of this fax may make a request to opt-out of receiving telemarketing fax transmissions from Aetna. There are numerous ways you may opt-out: The recipient may fax the opt-out request to 1-888-263-9488, at any time, 24 hours a day/7 day a week. The recipient may also send an opt-out request via email to **do\_not\_call@aetna.com**. An opt out request is only valid if it (1) identifies the number to which the request relates, and (2) if the person/entity making the request does not, subsequent to the request, provide express invitation or permission to Aetna to send facsimile advertisements to such person/entity at that particular number. Aetna is required by law to honor an opt-out request within thirty days of receipt. An opt out request will not opt you out of purely informational, non-advertisements, such as prior authorization requests and notices.
