Claim Reconsideration Request

The Claim Reconsideration option allows providers to request a review of a previously processed and finalized claim for certain non-clinical issues. This includes requests related to non-clinical denials, missing or corrected information, and reimbursement rate concerns.

We are actively working toward expanded electronic capabilities and encourage providers to begin using this updated submission method now. This process is intended for inquiries related to a claim that has already been processed.

Using this submission process allows you to:

- Submit all issues for a single claim in one request.
- Include all supporting documentation at the time of submission.
- Ensure visibility of submitted information across appropriate teams.

Important reminders:

- Submit one form per claim.
- Required fields are marked with an asterisk (*).
- Be specific and include relevant details to support your request.
- Do not use this form for formal appeals—please continue to follow your standard appeals process.

Claims Appeal	A provider appeal/dispute is the adjustment request of the processing, payment or nonpayment of a claim by ABHKY
