

Medicare Part B Preferred drug list — Aetna Assure Premier Plus (HMO D-SNP)

Some medically administered Part B drugs may have additional requirements or limits on coverage. These requirements and limits may include step therapy. This is when we require you to first try certain preferred drugs to treat your medical condition before covering another non-preferred drug for that condition.

For example, if Drug A and Drug B both treat your medical condition, we may prefer Drug A, and require you to try it first. If Drug A does not work for you, we will then cover Drug B. The listed preferred products should be used first. An exception process is in place for specific circumstances that may warrant a need for a non-preferred product.

Drug classes with preferred products are listed below. For specific medical indications subject to step therapy, please see the corresponding clinical policy bulletin on the Aetna website.

To find out more, go to [AetnaBetterHealth.com/New-Jersey-hmosnp](https://www.aetna.com/betterhealth/new-jersey-hmosnp). You can also call us at 1-844-362-0934 (TTY: 711), 8 a.m. to 8 p.m., 7 days a week.
