### Intent:

The intent of this policy/guideline is to provide information to the prescribing practitioner outlining the coverage criteria for Avonex under the patient’s prescription drug benefit.

### Description:

The indications below including FDA-approved indications and compendial uses are considered a covered benefit provided that all the approval criteria are met and the member has no exclusions to the prescribed therapy.

#### FDA-Approved Indication

Avonex is indicated for the treatment of relapsing forms of multiple sclerosis (MS), to include clinically isolated syndrome, relapsing-remitting disease, and active secondary progressive disease, in adults.

All other indications are considered experimental/investigational and not medically necessary.

### Applicable Drug List:

Avonex

### Policy/Guideline:

#### Prescriber Specialty:

This medication must be prescribed by or in consultation with a neurologist.

#### Criteria for Initial Approval:

##### A. Relapsing forms of multiple sclerosis

Authorization of 12 months may be granted to members who have been diagnosed with a relapsing form of multiple sclerosis (including relapsing-remitting and secondary progressive disease for those who continue to experience relapse).

##### B. Clinically isolated syndrome

Authorization of 12 months may be granted to members for the treatment of clinically isolated syndrome of multiple sclerosis.

#### Continuation of Therapy:

For all indications: Authorization of 12 months may be granted for members who are experiencing disease stability or improvement while receiving Avonex.
