	<input type="checkbox"/> New Jersey	<input checked="" type="checkbox"/> Maryland	<input type="checkbox"/> Michigan
	<input type="checkbox"/> Pennsylvania Kids	<input type="checkbox"/> Virginia	<input type="checkbox"/> Kentucky PRMD

Intent:

The intent of this policy/guideline is to provide information to the prescribing practitioner outlining the coverage criteria for Gender Affirming Care Services under the patient’s prescription drug benefit.

Description:

Policy Statement:

The Maryland Medical Assistance Program will provide medically necessary gender-affirming treatment in a nondiscriminatory manner; according to nondiscriminatory criteria that are consistent with current clinical standards.

Age and Consent Requirements:

Informed consent is required for all aspects of care. When consent involves a minor, parental consent will be required, and the current Maryland Minor Consent Laws will define who can consent for what services and providers’ obligations.

Pre-Authorization Requirements:

Pre-Authorization may be required for certain Medications, Surgical Procedures, and Medical Therapies. The Maryland Medicaid FFS program and the HealthChoice Managed Care Organizations (MCO) will provide Pre-Authorization review and benefit decisions. Adverse benefit decisions will be given a final determination by a health care provider with experience prescribing or delivering gender-affirming treatment who has reviewed and confirmed the appropriateness of the determination.

Covered Benefits:

1. Hormone Therapy
 - a. Cross Sex Hormone Therapy (Suppression/Replacement)
 - b. Puberty Suppression Therapy

Applicable Drug List:

Androgens:

- Jatenzo (testosterone undecanoate cap)
- Methitest capsule (methyltestosterone)
- Testopel (testosterone pellet)
- Testosterone cypionate
- Testosterone enanthate injection
- Testosterone nasal gel
