

AETNA BETTER HEALTH®
Coverage Policy/Guideline

Name: Tobramycin

Page: 1 of 2

Effective Date: 6/9/2025

Last Review Date: 5/27/2025

Applies to: ☒ Florida Kids ☒ New Jersey ☒ Maryland ☒ Pennsylvania Kids

Intent:

The intent of this policy/guideline is to provide information to the prescribing practitioner outlining the coverage criteria for tobramycin inhalation solution under the patient's prescription drug benefit.

Description:

I. FDA-Approved Indication

Management of cystic fibrosis in patients with *Pseudomonas aeruginosa*

II. Compendial Use

Pseudomonas aeruginosa lower respiratory tract infection in patients with non-cystic fibrosis bronchiectasis

All other indications are considered experimental/investigational and are not medically necessary.

Applicable Drug List:

tobramycin 300 mg/5 mL inhalation solution
tobramycin 300 mg/4 mL inhalation solution
TOBI
TOBI Podhaler (tobramycin inhalation powder)
Bethkis (tobramycin inhalation solution)
Kitabis Pak (tobramycin inhalation solution)

Policy/Guideline:

I. Criteria for Initial Approval:

A. Cystic Fibrosis

Authorization of 12 months may be granted for members 2 years of age and older with cystic fibrosis when *Pseudomonas aeruginosa* is present in airway cultures OR the member has a history of *Pseudomonas aeruginosa* infection or colonization in the airways. Patient must also be unable to take tobramycin 300 mg/5 mL nebulizer solution (generic) for the given diagnosis, due to a trial and inadequate treatment response, or intolerance, or a contraindication.

B. Bronchiectasis (Non-Cystic Fibrosis)

Authorization of 12 months may be granted for members with non-cystic fibrosis bronchiectasis when *Pseudomonas aeruginosa* is present in airway cultures OR the member has a history of *Pseudomonas aeruginosa* infection or colonization in the airways. Patient must also be unable to take tobramycin 300 mg/5 mL nebulizer
