Name: Velsipity (etrasimod)	Page: 1 of 2
Effective Date: 3/26/2024	Last Review Date: 01/08/2024
Applies to: <div> <input checked="" type="checkbox"/> Illinois <input type="checkbox"/> Maryland <input type="checkbox"/> Michigan </div>	<div> <input type="checkbox"/> Florida <input checked="" type="checkbox"/> Florida Kids <input type="checkbox"/> Virginia </div> <div> <input checked="" type="checkbox"/> New Jersey <input checked="" type="checkbox"/> Pennsylvania Kids <input type="checkbox"/> Kentucky PRMD </div>

Intent:

The intent of this policy/guideline is to provide information to the prescribing practitioner outlining the coverage criteria for Velsipity under the patient’s prescription drug benefit.

Description:

FDA-Approved Indication

Treatment of moderately to severely active ulcerative colitis in adults.

All other indications are considered experimental/investigational and not medically necessary.

Applicable Drug List:

Velsipity

Policy/Guideline:

- Member cannot use the requested medication concomitantly with immunomodulators, biologic drugs, or targeted synthetic drugs.
- The patient is unable to take adalimumab and Rinvoq due to a trial and inadequate treatment response or intolerance, or a contraindication. Documentation is required for approval

Documentation

Submission of the following information is necessary to initiate the prior authorization review:

- Chart notes or medical record documentation supporting positive clinical response to therapy or remission

Prescriber Specialties

- This medication must be prescribed by or in consultation with gastroenterologist.

Criteria for Initial Approval:

- Authorization may be granted for adult members for treatment of moderately to severely active ulcerative colitis.

Criteria for Continuation of Therapy:

- Authorization may be granted for all adult members (including new members) who are using the requested medication for moderately to severely active ulcerative colitis and who achieve or maintain remission.

AETNA BETTER HEALTH®
Coverage Policy/Guideline

Name: Velsipity (etrasimod)

Page: 2 of 2

Effective Date: 3/26/2024

Last Review Date: 01/08/2024

Applies to:	<input checked="" type="checkbox"/> Illinois	<input type="checkbox"/> Florida	<input checked="" type="checkbox"/> New Jersey
	<input type="checkbox"/> Maryland	<input checked="" type="checkbox"/> Florida Kids	<input checked="" type="checkbox"/> Pennsylvania Kids
	<input type="checkbox"/> Michigan	<input type="checkbox"/> Virginia	<input type="checkbox"/> Kentucky PRMD

- Authorization may be granted for all adult members (including new members) who are using the requested medication for moderately to severely active ulcerative colitis and who achieve or maintain a positive clinical response as evidenced by low disease activity or improvement in signs and symptoms of the condition when there is improvement in ANY of the following from baseline:
 - A. Stool frequency
 - B. Rectal bleeding
 - C. Urgency of defecation
 - D. C-reactive protein (CRP)
 - E. Fecal calprotectin (FC)
 - F. Appearance of the mucosa on endoscopy, computed tomography enterography (CTE), magnetic resonance enterography (MRE), or intestinal ultrasound
 - G. Improvement on a disease activity scoring tool (e.g., Ulcerative Colitis Endoscopic Index of Severity [UCEIS], Mayo score)

Approval Duration and Quantity Restrictions:

Initial and Renewal Approval: 12 Months

Quantity Level Limit: Reference Formulary for drug specific quantity level limits

- Approvals may be subject to dosing limits in accordance with FDA-approved labeling, accepted compendia, and/or evidence-based practice guidelines.
