Avoiding Duplicate Claims for PT/OT on UB Submissions

Recently we have seen some occurrences of duplicate billing on PT/OT claim submissions. To avoid duplicate billing please follow the guidance shown below. Be sure when billing PT/OT on a UB claim that you use the correct rev code and HCPC combination.

Billing PT/OT therapy Codes on a UB claim

- Revenue Code 042X, 043X, 044X should not be billed with HCPC code T1015
- When billing PT and OT codes, they must be billed with the correct HCPC/CPT, **not** T1015

Claims will be denied

- We will deny claims with lines billed with T1015 if it is billed with a Therapy Revenue Code (for example: with 042X)
- Claims will also be denied if you bill revenue code 0510 and for example, also bill a therapy code such as 97004

For more information about Billing Codes you can contact our Provider Relations Department by calling 1-866-638-1232.
