ALIGNMENT WITH UPDATED SARS CPT CODES

We regularly revise our clinical, payment and coding policy positions as part of our ongoing policy review processes. This notice is developed to keep you informed of the details of the upcoming new policies or policy changes for Aetna Better Health Kids (CHIP).

Consistent with DHS Medical Assistance Bulletin MAB2023121101, **effective December 11, 2023**, Aetna Better Health Kids is fully aligned with the criteria, billing guidelines and payment policies of the bulletin including the termination of the old codes and adoption of the new codes.

These changes enable the DHS to identify the specific SARS-CoV-2 vaccines that have been administered. This level of specificity offers the ability to track each vaccine, even when the vaccine product is not reported, such as when the vaccine is available at no cost.

For more details you can review the entire MAB bulletin under the State Bulletins tab on our website here:
