Aetna Better Health of Texas

2026 Texas Prescription Monitoring Program (PMP) Prescriber Survey Responses Requested by May 11, 2026

At Aetna Better Health of Texas, we are reaching out to request your completion of the 2026 Texas Prescriber PDMP Survey **by May 11, 2026**.

The Texas Health and Human Services Commission (HHSC), through its Vendor Drug Program (VDP), is conducting a statewide Prescription Monitoring Program (PMP) Prescriber Survey to support the Centers for Medicare & Medicaid Services (CMS) Federal Fiscal Year (FFY) 2025 Drug Utilization Review (DUR) Annual Report. At Aetna Better Health of Texas, we are helping distribute this survey to prescribing providers. Survey results will be aggregated by HHSC and used solely to fulfill mandatory federal reporting requirements related to Prescription Drug Monitoring Program (PDMP) utilization.

HHSC requests that prescribing providers complete a brief survey regarding their use of the Texas Prescription Drug Monitoring Program (PDMP) when prescribing controlled substances. Responses support a required CMS reporting measure related to PDMP review prior to prescribing.

Action Required

Prescribing providers are requested to complete the 2026 Texas Prescriber PDMP Survey no later than May 11, 2026. Responses will be analyzed and reported in aggregate by HHSC's Vendor Drug Program. At Aetna Better Health of Texas, we do not review, validate, or retain individual survey responses.
