4 barriers to good health — and how your Aetna plan can help

The road to good health can have many twists and turns. Roadblocks like not having access to healthy foods or a ride to the doctor's office can make it harder to take care of your health. And many of these barriers may be out of your control. That's why Aetna Better Health® of Texas provides benefits designed to help you overcome these barriers and keep you and your family healthy.

Barriers story continued

BARRIER 1 **Transportation**

Nearly 6 million people say that a lack of transportation keeps them from seeking medical care.

How Aetna can help:

We provide rides to any nonemergency appointments and covered services. To schedule a ride, call Access2Care at **1-866-411-8920 (TTY: 711)** or download the Access2Care (A2C) app on your smartphone. Be sure to schedule your ride at least two business days before your appointment. We also offer daily bus passes to members and other transportation services to help you get where you need to go. Call Member Services for more information.

BARRIER 2 **Language**

We know that not all members speak English as their first language. That can make it hard to talk to your doctor or ask questions about your benefits.

How Aetna can help:

If you need a qualified interpreter, written information in other formats, translation or other services, call the number on your ID card or **1-800-385-4104 (TTY: 711)**.

Our Service Coordinators are here for you

Do you need help getting care? Our team is here for you. Service coordinators are nurses and social workers who understand your health conditions and help connect you to the right care.

A service coordinator can help you learn more about your health, find a ride to your appointments and do many other things to help.

BARRIER 3 **Access to care**

Maybe you don't live near a doctor's office. Or you don't have time to go to an appointment. This can make it tough to get the care you need.

How Aetna can help:

We offer telehealth services. You can talk to a provider via a phone or video chat from the comfort of your own home, on your schedule. We've teamed up with MDLIVE to connect you to licensed doctors, pediatricians and more using your smartphone, tablet or computer. You can get these telehealth services at no cost to you. Visit [AetnaBetterHealth.com/texas/telehealth.html](https://www.aetna.com/betterhealth/texas/telehealth.html) to learn more.

Have a medical problem after hours? You can call **1-800-556-1555 (TTY: 711)**, our 24-hour nurse line, to talk with a nurse anytime. They can help you decide where to go for care or how to treat your health problem at home.

BARRIER 4 **Costs**

Costs are rising for housing, food and other essentials. So it may be harder than ever to stick to your budget.

How Aetna can help:

Your health plan provides other Value-Added Benefits to help you pay for life's health essentials, including:

- \$25 per month to spend on certain over-the-counter drugs and supplies from our catalog.
- A free smartphone with unlimited texts, minutes and data.
- Earn gift cards for completing certain wellness activities.

Check out your Member Handbook or visit [AetnaBetterHealth.com/texas](https://www.aetna.com/betterhealth/texas) to learn more about the benefits and services included in your health plan, as well as those not covered.

Good health care starts with the right doctor

Your primary care provider (PCP) is your first stop for all your health care needs. But at some point, you may need to see a specialist to help treat certain injuries or illnesses. When this happens, your PCP will help you find a specialist and refer you for care.

You don't always need a referral to see a specialist. For example, women do not need a referral to see an ob-gyn for routine care.

Here are three ways your Aetna Better Health® plan can help connect you with the right provider.

Provider network

You must get most of your care from providers in our network.

Go to [AetnaBetterHealth.com/texas/find-provider](https://www.aetna.com/texas/find-provider) to find in-network providers. You can search or download our provider directory.

Call Member Services if you need help or want a hard copy of the provider directory.

Out-of-network care

Let's say there are no network providers near you. Or there aren't any appointments available. If that happens, we can help you get a referral to see a provider outside of the network. You won't be charged more for out-of-network care in this case.

Second opinions

You may not always agree with your doctor's plan of care. If this happens, you have the right to go to another provider for a second opinion. You don't have to pay to get a second opinion, and you don't need prior authorization. Call Member Services to learn more.

Your Member Handbook has info about all the types of care covered by your plan, including:

- Primary care
- Specialty care
- Behavioral health care
- Emergency care

View your handbook at aetna.com/sp24tx-sk-2 or call Member Services for a copy.

Understand your pharmacy benefits

Wondering if your medications are covered? Check out your plan's List of Covered Drugs (also called the "Preferred Drug List," or

formulary). It tells you which medicines are covered at network pharmacies. It also tells you if there are any special rules or restrictions on covered drugs.

The Preferred Drug List is updated regularly. Find the latest list at [AetnaBetterHealth.com/texas/pharmacy-prescription-drug-benefits.html](https://www.aetna.com/texas/pharmacy-prescription-drug-benefits.html) or call Member Services for a printed copy. You can find more information on all your pharmacy benefits in the Member Handbook.

Benefits at your fingertips. Access your plan benefits from anywhere through your online Member Portal. You can also use the Aetna Better Health app to see your benefits on the go. Visit [AetnaBetterHealth.com/texas/member-portal.html](https://www.aetna.com/texas/member-portal.html) to get started!

Reporting health care fraud, waste and abuse

What are fraud, waste and abuse?

Fraud happens when someone lies to get money or services.

Waste happens when someone uses benefits or services they don't need.

Abuse happens when someone takes money for services when they aren't legally entitled to payment.

Some examples of fraud, waste and abuse include:

- A provider bills you for services that you didn't receive
- Someone else uses your identity to get medical services

Reporting fraud, waste or abuse

If you suspect or know that fraud, waste or abuse is occurring, report it immediately. Visit [AetnaBetterHealth.com/texas/medicaid-fraud-abuse.html](https://www.aetna.com/texas/medicaid-fraud-abuse.html) to submit a report.

Reporting fraud, waste or abuse will not affect how you are treated by Aetna Better Health of Texas, and you can remain anonymous. Combating fraud, waste and abuse is everyone's responsibility. Failure to comply could result in civil and criminal penalties.
