Attention Providers:

Family Practice, General Practice and Pediatric Providers

Re: Respiratory Virus Panel (RVP) claims

Dear Provider,

Repository Virus Panel (RVP) claims submitted with CPT codes **87631**, **87632**, and **87633** will deny when billed outside of place service *Urgent care facility POS 20, Inpatient hospital POS 21 or Emergency Room- Hospital POS 23.*

Please note: In a recent Aetna Better Health of Virginia CPT audit, we have identified Family, General Practice and Pediatric providers who have routinely billed claims with CPT codes **87631**, **87632**, and **87633**, which are typically rendered to critically ill patients in a hospital, ER, and urgent care setting.

A claim edit has been initiated to deny all claims if not rendered within appropriate place of service.

For additional assistance, please contact our Claims department:

CCP Plus: **1-855-652-8249**

Medallion and FAMIS: **1-800- 279-1878**

Sincerely,

Aetna Better Health of Virginia
