Cub Club Activity**

Aetna Better Health® of West Virginia

Shots are important

Shots are a good way to keep your child healthy. They help protect your child from some fatal diseases. And they're a covered benefit. It is important for **you** to know which shots your child needs. Call your child's doctor to make sure they get their shots on time.

Take this form with you any time your child gets shots.

- Ask the doctor to date and initial the form when shots are given to your child.
- *Remember: all the shots must be completed by your child's second birthday!*
- If your child has to miss an appointment, reschedule it quickly to stay on track.
- When all shots are completed, ask the doctor to sign and date the back of this form.
- Make sure you write in your child's name, ID number (from their card), and contact information.
- Mail the completed form to us at the address provided.
- Once the form has been processed, your child will officially be one of Ted E. Bear, M.D.'s HotShots! A prize will be mailed to the address provided.
