#### E2. Mail-order pharmacy

You can get prescription drugs shipped to your home through our network mail-order delivery program which is called CVS Caremark Mail Service Pharmacy. CVS Caremark Mail Service Pharmacy will contact you for your consent before shipping or delivering any prescriptions you do not request, such as when your doctor sends in a new prescription for the first time. This will give you a chance to make sure you get the correct drug, including strength, amount, and form. If necessary, you can cancel or delay the order before it is shipped.

- **New prescriptions the pharmacy gets from you**

The pharmacy will automatically fill and deliver new prescriptions it gets from you.

- **New prescriptions the pharmacy gets directly from your provider's office**

The pharmacy will automatically fill and deliver new prescriptions it gets from health care providers, without checking with you first, if either:

- You used mail order services with this plan in the past, or

**You sign up for automatic delivery of all new prescriptions you get directly from health care providers. You may ask for automatic delivery of all new prescriptions now or at any time by calling Member Services.**

You also have the choice to sign up for automated mail-order delivery through our CVS Caremark Mail Service Pharmacy. Typically, you should expect to get your prescription drugs within 15 days from the time that the mail-order pharmacy gets the order. If you do not get your prescription drug(s) within this time or if you would like to cancel an automatic order, contact us at **1-844-362-0934 (TTY: 711)** 8 a.m. to 8 p.m. (EST), 7 days a week. To learn more about mail order pharmacies, see Chapter 5 of the *Evidence of Coverage*.

#### E4. Long-term care pharmacies

Residents of a long-term care facility, such as a nursing home, may access their prescription drugs covered under Aetna Assure Premier Plus (HMO D-SNP) through the facility's pharmacy or another network pharmacy. To learn more about drug coverage in special cases, see Chapter 5 of the *Evidence of Coverage*.

LTC pharmacies are included in the network. These pharmacies offer pharmacy services to patients that are housed in a type of group home like a nursing home or rehabilitation center. Generally, all LTC pharmacies are in network. LTC pharmacies will fill prescription orders written by medical staff in the group home and deliver the medication directly to the medical staff who will distribute the medication to the members. Generally, each group home will have one or two LTC pharmacies that supply most of the pharmacy services to all of the members residing in the facility.

To get information about filling your prescriptions at an LTC pharmacy call your care manager or Member Services at the number at the bottom of the page.
