Diagnosis:_____ ICD Code:_____

Please circle the appropriate answer for each question.

1. Has this plan authorized Humira in the past for this patient (i.e., previous authorization is on file under this plan)? Y N

   [If no, skip to question 7.]

2. Does the patient have a diagnosis of ulcerative colitis or Crohn's disease? Y N

   [If no, skip to question 4.]

3. Is the patient in remission without requiring more than 5mg of prednisone daily? Y N

[No further questions.]

4. Does the patient have a diagnosis of hidradenitis (acne inversa)? Y N

   [If no, then skip to question 6.]

5. Has the patient had reduction in total abscess (25%) and inflammatory nodules and no increase in abscesses or draining fistulas? Y N

   [No further questions.]

6. Has the patient had at least a 20% improvement in symptoms? Y N

   [No further questions.]

7. Does the patient have a diagnosis of rheumatoid arthritis (RA) with moderate to high disease activity? Y N

   [If no, skip to question 10.]

8. Has the patient had failure to an adequate trial (3 months) of two disease modifying anti-rheumatic drugs (DMARDs) regimens (one must be methotrexate)? Y N

   If yes, list medications tried: _____

   Note: Monotherapy regimen: methotrexate (MTX), hydroxychloroquine (HCQ), leflunomide (LEF), sulfasalazine (SSZ).

   Combination regimen: MTX+SSZ+HCQ; MTX+HCQ, MTX+LEF, MTX+SSZ, SSZ+HCQ

   [If yes, skip to question 67.]

9. Does the patient have a contraindication to methotrexate? Y N

   Note: Contraindications such as Pregnancy, alcoholism, Chronic liver disease, Leukopenia, thrombocytopenia, or anemia.

   If yes, please document contraindication:_____

   [If no, then no further questions]

   [If yes, skip to question 67.]

10. Does the patient have a diagnosis of juvenile idiopathic arthritis (JIA)? Y N

[If no, skip to question 22.]

11. Does the patient have the systemic subtype of JIA? Y N

    [If no, skip to question 15.]

12. Does the patient currently have any ACTIVE systemic features? Y N

    Note: Systemic features such as fever, evanescent rash, lymphadenopathy, hepatomegaly, splenomegaly, or serositis.

    If yes, please list:_____

    [If yes, then no further questions.]

13. Does the patient continue to have synovitis in at least 1 joint despite 3 months of treatment with methotrexate or leflunomide? Y N

    [If yes, skip to question 21.]

14. Does the patient have contraindications to methotrexate and leflunomide? Y N

    Note: Contraindications such as Pregnancy, alcoholism, Chronic liver disease, Leukopenia, thrombocytopenia, or anemia.

    If yes, please document contraindication:_____

    [If no, then no further questions]

    [If yes, skip to question 21.]

15. Does the patient have severe or moderate to severe polyarticular juvenile idiopathic arthritis (pJIA)? Y N

    [If yes, skip to question 19.]

16. Does the patient have extended oligoarticular juvenile idiopathic arthritis (JIA)? Y N

    [If no, then no further questions.]

17. Has the patient tried and had inadequate response with at least 2 different NSAIDs? Y N

    If yes, please list medications tried:_____

    [If yes, skip to question 19.]

18. Does the patient have intolerance or contraindications to Y N

NSAIDs?

Note: Contraindications such as true allergic reaction to NSAIDs, history of worsening asthma symptoms after taking aspirin or NSAIDs, current GI bleed, severe renal dysfunction.

If yes, please document contraindication:_____

[If no, then no further questions.]

19. Has the patient had failure to an adequate trial (3 months) of methotrexate? Y N

[If yes, skip to question 21.]

20. Does the patient have a contraindication to methotrexate? Y N

Note: Contraindications such as Pregnancy, alcoholism, Chronic liver disease, Leukopenia, thrombocytopenia, or anemia.

If yes, please document contraindication:_____

[If no, then no further questions]

21. Is the patient at least 2 years of age? Y N

[If no, no further questions.]

[If yes, skip to question 68.]

22. Does the patient have a diagnosis of ankylosing spondylitis (AS)? Y N

[If no, skip to question 26.]

23. Does the patient have unacceptable disease activity despite an adequate trial (3 months) with at least 2 different NSAIDs? Y N

If yes, please list medications tried:_____

[If no, skip to question 25.]

24. Is the patient currently on or will continue taking an NSAID with the requested medication? Y N

[If yes, skip to question 67.]

25. Does the patient have contraindications to NSAIDs? Y N

Note: Contraindications such as true allergic reaction to NSAIDs,

history of worsening asthma symptoms after taking aspirin or NSAIDs, current GI bleed, severe renal dysfunction.

If yes, please document contraindication:_____

[If yes, then skip to question 67]

[If no, then no further questions.]

26. Does the patient have a diagnosis of plaque psoriasis? Y N

[If no, skip to question 33.]

27. Does the patient have more than 10% of body surface area involvement with plaque psoriasis or has a PASI score of more than 10? Y N

[If no, then no further question.]

28. Does the plaque psoriasis have a significant impact on physical, psychological, or social wellbeing? Y N

[If no, then no further questions.]

29. Has the patient failed standard topical therapies? Y N

If yes, please list medications tried: _____

[If no, then no further questions.]

30. Has the patient tried and had an insufficient response to phototherapy (UVB or PUVA) or is unable to receive phototherapy? Y N

If yes, please provide rationale:_____

[If no, then no further questions.]

31. Has the patient had failure to an adequate trial (3 months) of methotrexate or cyclosporine? Y N

[If yes, then skip to question 67.]

32. Does the patient have a contraindication to both methotrexate and cyclosporine? Y N

Note: Contraindications such as Pregnancy, alcoholism, Chronic liver disease, Leukopenia, thrombocytopenia, or anemia.

If yes, please document contraindications: _____

[If yes, then skip to question 67.]

[If no, then no further questions.]

33. Does the patient have a diagnosis of psoriatic arthritis (PsA)? Y N

[If no, skip to question 42.]

34. Does the patient have primarily axial disease (involving the spine) or active enthesitis/dactylitis? Y N

[If no, skip to question 36.]

35. Has the patient tried an adequate trial (3 months) with at least 2 different NSAIDs and had inadequate response? Y N

If, yes, please list medications tried:_____

[If yes, skip to question 40.]

[If no, skip to question 41.]

36. Does the patient have active psoriatic arthritis? Y N

[If no, then no further questions.]

37. Has the patient had failure to an adequate trial (3 months) of methotrexate? Y N

[If yes, skip to question 40.]

38. Does the patient have a contraindication to methotrexate? Y N

Note: Contraindications such as Pregnancy, alcoholism, Chronic liver disease, Leukopenia, thrombocytopenia, or anemia.

If yes, please document contraindication:_____

[If no, then no further questions.]

39. Has the patient had failure to an adequate trial (3 months) of sulfasalazine or leflunomide? Y N

[If no, then no further questions.]

40. Is the patient currently on or will continue taking an NSAID with requested medication? Y N

[If yes, then skip to question 67.]

41. Does the patient have contraindications to NSAIDs? Y N

    Note: Contraindications such as true allergic reaction to NSAIDs, history of worsening asthma symptoms after taking aspirin or NSAIDs, current GI bleed, severe renal dysfunction.

    If yes, please document contraindication:_____

    [If yes, then skip to question 67.]

    [If no, then no further questions.]

42. Does the patient have a diagnosis of Crohn's Disease? Y N

    [If no, skip to question 48.]

43. Has the patient had inadequate response or intolerable side effects to IV corticosteroids after 7-10 days or oral prednisone (dosed at 40mg or more per day) for 30 days)? Y N

    [If yes, skip to question 47.]

44. Does the patient have steroid-dependent Crohn's disease as evidenced by one of the following: A) Patient had a relapse within three months of stopping corticosteroids; OR B) Patient is unable to taper steroids to an acceptable dose after 3 months without having symptom recurrence? Y N

    [If no, then no further questions.]

45. Has the patient had failure to an adequate trial (3 months) of azathioprine (AZA), mercaptopurine (6-mp) or injectable methotrexate? Y N

    [If yes, skip to question 47.]

46. Does the patient have a contraindication to all of the following: azathioprine (AZA), injectable methotrexate and mercaptopurine (6-mp)? Y N

    If yes, please document contraindication(s):

    _____

    [If no, then no further questions]

47. Is the patient at least 6 years of age? Y N

    [If no, then no further questions.]

[If yes, skip to question 68.]

48. Does the patient have a diagnosis of ulcerative colitis (UC)? Y N

    [If no, skip to question 57.]

49. Has the patient had inadequate response or intolerable side effects to IV corticosteroids after 7-10 days or oral prednisone (dosed at 40mg or more per day for 30 days)? Y N

    [If no, skip to question 54.]

50. Has the patient had a previous treatment failure with azathioprine (AZA) AND mercaptopurine (6-MP) OR has a contraindication to azathioprine and mercaptopurine? Y N

    If yes, please list medication tried and/or contraindications:_____

    [If yes, skip to question 67.]

51. Has the patient had surgery for ulcerative colitis (UC)? Y N

    [If yes, skip to question 67.]

52. Has the patient had an inadequate response or intolerable side effects to cyclosporine? Y N

    [If yes, skip to question 67.]

53. Does the patient have a contraindication to cyclosporine? Y N

    [If no, then no further questions.]

    [If yes, skip to question 67.]

54. Does the patient have steroid-dependent ulcerative colitis as evidenced by one of the following: A) Patient had a relapse within three months of stopping corticosteroids; OR B) Patient is unable to taper steroids to an acceptable dose after 3 months without having symptom recurrence? Y N

    [If no, then no further questions.]

55. Has the patient had failure to an adequate trial (3 months) of azathioprine (AZA) or mercaptopurine (6-MP)? Y N

    [If yes, skip to question 67.]

56. Does the patient have a contraindication to azathioprine and mercaptopurine? Y N

    [If yes, skip to question 67.]

    [If no, then no further questions]

57. Does the patient have a diagnosis of hidradenitis suppurativa (acne inversa, HS)? Y N

    [If no, then skip to question 63.]

58. Does the patient have at least 3 abscesses or inflammatory nodules? Y N

    [If no, then no further questions.]

59. Does the patient have moderate to severe disease (Hurley stage II-III)? Y N

    [If no, then no further questions.]

60. Has the patient had an inadequate response or intolerance to an oral antibiotic (e.g., tetracycline, doxycycline or minocycline)? Y N

    [If yes, then skip to question 67.]

61. Does the patient have contraindication to oral tetracycline? Y N

    [If no, then no further questions]

62. Has the patient had an inadequate response or intolerance to topical antibiotics? Y N

    [If yes, then skip to question 67.]

    [If no, then no further questions]

63. Does the patient have a diagnosis of Uveitis? Y N

    [If no, then no further questions]

64. Has the patient been diagnosed with non-infectious intermediate, posterior, or panuveitis? Y N

    [If no, then no further questions]

65. Is the patient currently taking corticosteroid or has a contraindication to corticosteroids? Y N

[If no, then no further questions]

66. Has the patient had an inadequate response, intolerance or contraindication to two immunosuppressive agents (e.g., azathioprine, methotrexate, mycophenolate, cyclosporine, or tacrolimus)? Y N

    [If no, then no further questions]

67. Is the patient at least 18 years of age? Y N

    [If no, then no further questions.]

68. Is Humira being prescribed by, or in consultation with a specialist, based on indication (rheumatologist, dermatologist, gastroenterologist)? Y N

    [If no, then no further questions.]

69. Has the patient been screened for latent tuberculosis (TB) and hepatitis B? Y N

    [If no, then no further questions.]

70. Does the patient have an active infection (including Hepatitis B and/or tuberculosis (TB)? Y N

    [If no, skip to question 72.]

71. Is the patient currently receiving or has completed treatment for latent TB infection or Hepatitis B? Y N

    [If no, then no further questions.]

72. Will Humira be given in combination with another biologic DMARD? Y N

    [If yes, then no further questions.]

73. Does the patient have CHF (NYHA class III or IV)? Y N
