**General claims submission requirements**

1. DASA Services may only be rendered from a site that is certified by the Department of Human Services' Division of Alcohol and Substance Abuse (DASA). The NPI providers bill Managed Care Plans under must correspond to a DASA certified site.
2. Providers offering both substance abuse and mental health services from the same site may not utilize the same NPI number for billing substance abuse and mental health services. Mental health services must be billed under a separate NPI number from substance abuse services.
3. All outpatient DASA services are to be submitted on an 837P claim. All inpatient/residential DASA services are to be submitted on an 837I claim, in line with the claim type listed in table 1.
4. As with all other encounter data submissions, the HCP and K3 segments are required on all DASA claims.
5. Aetna Better Health of Illinois will follow these guidelines on their historical DASA claims.
6. Any valid DASA services not listed but paid by Aetna Better Health of Illinois will be accepted but default priced at \$0 on encounters reported to HFS.

**Diagnosis codes**

A primary diagnosis code is required on all DASA claims. Acceptable primary diagnosis codes for DASA claims are listed below in Table 2:

Table 2. Acceptable primary diagnosis codes for DASA services

2. A value code of 80 is required on all 837I claims for the number of covered treatment days.
3. If a member is being dually treated for both alcohol and substance abuse, the primary admitting diagnosis code should be utilized to determine the appropriate revenue code (944 or 945) for the claim.
