

**Aetna Better Health
of Louisiana
Formulary Guide
January 2019**

What is the Aetna Better Health in Louisiana Formulary?

This is a drug list created by Aetna Better Health in Louisiana (“plan”). The plan will cover drugs on this list. Some drugs may have coverage rules. If the rules for that drug are met, the plan will cover the drug. Drugs must also be filled at a plan’s network pharmacy.

Can the Plan’s Drug List change?

The plan may add or remove drugs on the list. All drug removals from the formulary will be sent to the state for review at least 30 days before the change is made. Utilizing members will be notified at least 30 days before a drug is removed from the formulary. All changes to the formulary will be posted on the plan’s website.

How do I use the Plan’s Formulary?

- **Column #1:** lists the covered drug. Brand drugs are in upper case letters (e.g., DRUG). Generics are in lower case letters (e.g., drug).
- **Column #2:** lists the brand name of the drug when a generic is covered
- **Column #3:** shows coverage rules for the drug

Drugs are also grouped by the type of condition they treat. Drugs used to treat an earache are listed under the section, “Ear-Nose-Throat Medications.” If you know what your drug is used for, please look for that section name on the drug list. Then look under that section for your drug.

What are generic drugs?

The plan covers both brand and generic drugs. Generic drugs cost less and are approved by the Food and Drug Administration (FDA).

Are Over-The-Counter (OTC) drugs covered?

The plan will cover OTC drugs on the formulary. Some OTC drugs may have coverage rules. If the rules for that OTC drug are met, the plan will cover the OTC drug. Like other drugs, OTC drugs need a prescription from a doctor if they are to be covered by the plan.

Are there Medication Copays?

Copays for brand drugs are \$0 and copays for generic drugs are \$0.

What are some types of coverage rules?

- **Prior Approval (PA):** This means your doctor will need to get approval from the plan first before the drug can be filled at the pharmacy. If it is not approved, the plan will not cover the drug.
- **Quantity Level Limits (QLL):** This means there is a limit on the amount of drug the plan will cover. For example, the plan provides 60 pills in 30 days for some drugs.
- **Step Therapy (ST):** This means you may need to try certain drugs first to treat your condition. After the first drug is tried, the plan will then cover the other drug for that same condition. For example, Drug A and Drug B may treat your condition. The plan may not cover Drug B unless you try Drug A first. If Drug A does not work for you, then Drug B will be covered.

What if my drug is not on the plan's Formulary?

First, please call your doctor and ask if your drug is covered. If the plan does not cover the drug, then:

- Ask your doctor for a similar drug that is covered.
- Your doctor can ask the plan to cover your drug through the prior approval process.

Table of Contents

Adhd/Anti-Narcolepsy/Anti-Obesity/Anorexians	3
Aminoglycosides	5
Analgesics - Anti-Inflammatory	5
Analgesics - Nonnarcotic	8
Analgesics - Opioid	9
