Section 1 - Introduction

This directory provides a list of Aetna Better Health's network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage.

You will have to choose one of our network providers listed in this directory to be your Primary Care Provider (PCP). Generally, you must get your health care services from your PCP. If you did not select a PCP on your enrollment form, we will assign you a PCP near where you live. You may change your PCP at any time by calling Member Services. You can choose another PCP by using this directory, checking the website directory at www.aetanbetterhealth.com/virginia/find_a_provider or by calling Member Services. Once you have chosen a PCP, call Member Services, and let us know your choice.

Your PCP will make decisions regarding your health care. You will get routine or basic care from your PCP. Your PCP will also coordinate other covered services you need. For example if you need to see a specialist, your PCP will need to give you a referral. Your PCP will also get prior authorization from Aetna Better Health of Virginia when needed for certain services. You may change your PCP for any reason, at any time. Also, it's possible that your PCP might leave our plan's network of providers and you would have to find a new PCP.

The network providers listed in this directory have agreed to provide you with your health care/vision/dental services. You may go to any of our network providers listed in this directory; however, some services may require prior authorization.

You must use network providers except in emergency or urgent care situations or for out of area renal dialysis or other services. If you obtain routine care from out of network providers, neither Medicare nor Aetna Better Health of Virginia will be responsible for the costs.

May require a referral.

Getting Specialty Care

When your PCP thinks that you need specialized treatment, he or she will give you a "referral" (approval in advance) to see a network specialist. A specialist is a doctor who provides health care services for a specific disease or part of the body. Some examples of specialists are: oncologists, who treat cancer; cardiologists, who treat heart conditions; and orthopedists, who treat certain bone, joint, or muscle conditions. It is very important to get a referral from your PCP before you see a specialist. If you don't have a referral before you get services from a specialist, you may have to pay for these services yourself. If a specialist needs to see you for more than one visit, check with your PCP to find out if these visits are included under your original referral. A new referral may be needed for the extra visits. If there are specific hospitals you like, ask your PCP if they use these hospitals. Certain health care services, such as hospitalization or outpatient surgery, require prior authorization with Aetna Better Health of Virginia. This means the service must be approved by Aetna Better Health of Virginia before it will be covered. Check your Evidence of Coverage for a complete list of services that require this type of approval. When you need services that require prior authorization, our network providers are responsible to get the prior authorization before you receive the service.

What services can you get on your own, without getting a referral (approval in advance) from your (PCP)?

You may get the following services on your own, without a referral (approval in advance) from your PCP. You must get these services from providers in the Aetna Better Health of Virginia network. You still have to pay your share of the cost, as appropriate, for these services.

- Routine woman's health care, which includes breast exams, mammograms (X-rays of the breast), Pap tests, and pelvic exams (some tests may require an order from your PCP.)
- Flu shots, Hepatitis B vaccinations, and pneumonia vaccinations as long as you get them from a network provider.

- Kidney dialysis services that you get at a Medicare_certified dialysis facility when you are temporarily outside the plan's service area. (If possible, please call Member Services before you leave the service area so we can help arrange for you to have maintenance dialysis while you are away.)
- Aetna Better Health of Virginia members may self_refer for evaluation for behavioral health services (both inpatient and outpatient) to providers in the Aetna Better Health of Virginia behavioral health network.
- Aetna Better Health of Virginia members do not need a referral or prior authorization to receive covered supplemental benefits from network providers of dental, hearing, or vision services.

What should you do if you received a bill from an out-of-network provider that you think should be paid by Aetna Better Health of Virginia?

If you had to get services from an out_of_network provider and you get a bill for the services, do not pay it. Send the bill to the address listed below for processing.

Aetna Better Health of Virginia
P.O. Box 63518
Phoenix, AZ 85082-3518

If the claim is payable, we will pay the provider and you will be notified of any cost sharing responsibility. If you have already paid for the services, submit a copy of the bill and proof of payment to us for processing. If the claim is payable, you will be reimbursed for our share of the cost. If we deny the claim, you will be notified in writing and provided with your appeal rights. If you have questions about a bill you received, please call Member Services for assistance.

You must use network providers except in emergency or urgent care situations or for out-of-area renal dialysis or other services. If you obtain routine care from out-of-network providers, neither Medicare nor Aetna Better Health of Virginia (HMO SNP) will be responsible for the costs.
