

Maternity Services for Your Patients

Refer your patients to our Maternity Care Management program

If your patients are looking to start a family or are already pregnant, refer them to the ProgenyHealth® Maternity Care Management program delivered by Aetna Better Health® of Florida. The program is available to Medicaid members.

We support your pregnant patients throughout their pregnancy with help from our experienced Maternity Case Managers – nurses and social workers – as well as nutrition and lactation coaches. Plus, your patients have access to maternity mobile apps at no additional cost to you or your patients.
