Reminder: Taxonomy Codes Required

This is a reminder that IlliniCare Health requires all claim submissions be billed with the appropriate taxonomy code. There must be a valid taxonomy code consistent with the provider's specialty and the services being rendered present on a claim in order to avoid claim rejection. Please see below guidance on billing a Taxonomy code.

Taxonomy Requirements for Electronic submissions:

Professional:
Billing Provider Taxonomy is sent in Loop 2000A and Segment PRV
Rendering Provider Taxonomy is sent in Loop 2310B and Segment PRV

Institutional:
Billing Provider Taxonomy is sent in Loop 2000A and Segment PRV

Taxonomy Requirements for Paper submissions:

CMS1500:
Rendering Provider:
Box 24I= qualifier ZZ and Box 24J= Taxonomy code

Billing provider:
Box 33b= qualifier ZZ followed directly by Taxonomy code (with no space or character in between)

UB04:
Box 81CCa= qualifier B3 followed by Taxonomy code
